## SIRE INFORMATION

- **Named Stags in Alpha Order  
followed by**
- **Tag No. Stags in Numerical Order**

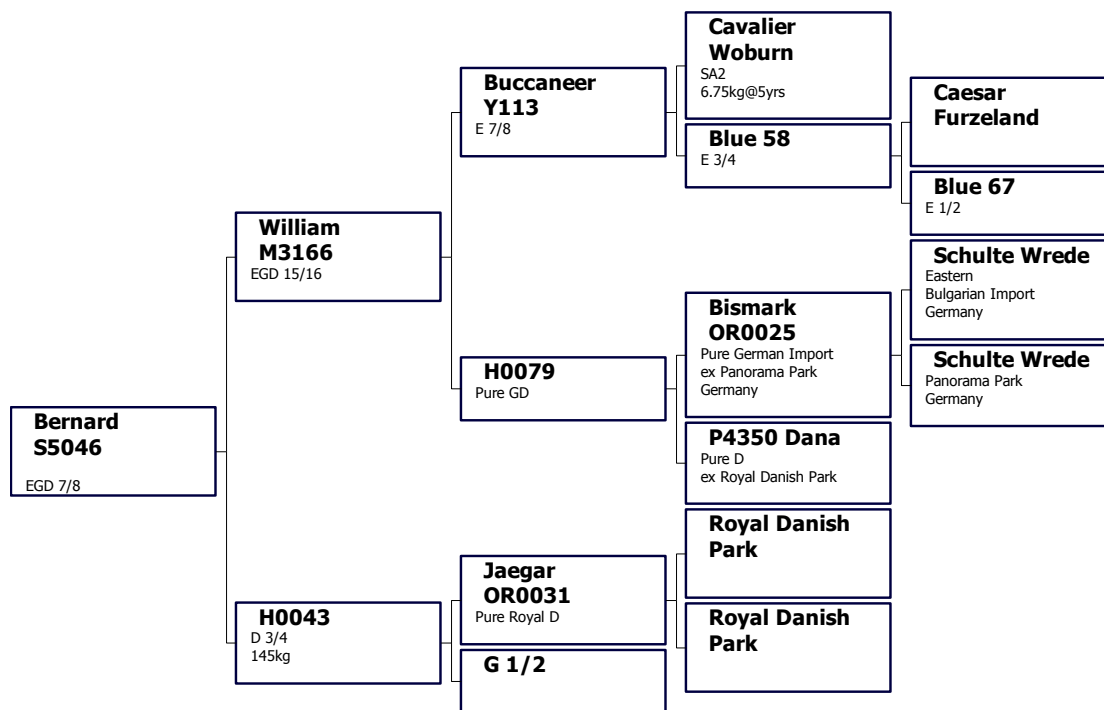

## ADONIS - Furzeland / Eastern / Woburn (1992)

- Adonis is one of the New Zealand Deer Industry's legendary stags as the former SCI World no. 1 with an SCI score of 523.
- Adonis' Furzeland, Eastern, Woburn bloodlines include such industry famous deer as Terminator, Caesar, Magyar, Otto, Leopould, Tito and Yugo.
- Adonis' antler confirmation is superb – wide beam, heavy timber, multi pointed huge throwbacks.
- An exceptional stag may achieve a 500 SCI at 8 years of age. Adonis scored 523 at only 6 years of age. He was a proven sire, with his magnificent antler producing genes leaving amazing antler development in his progeny.
- As a spiker Adonis was used as a back up stag and that is when he sired Furze DG.
- Another Adonis son – Netherdale's "Maximus", produced 6.8kgs velvet at 3 years, see 2001 National Velvet Competition.
- The majority of Adonis spiker progeny are extensively multi-pointed.

## BERNARD S5046 - English / Danish / German (1995)

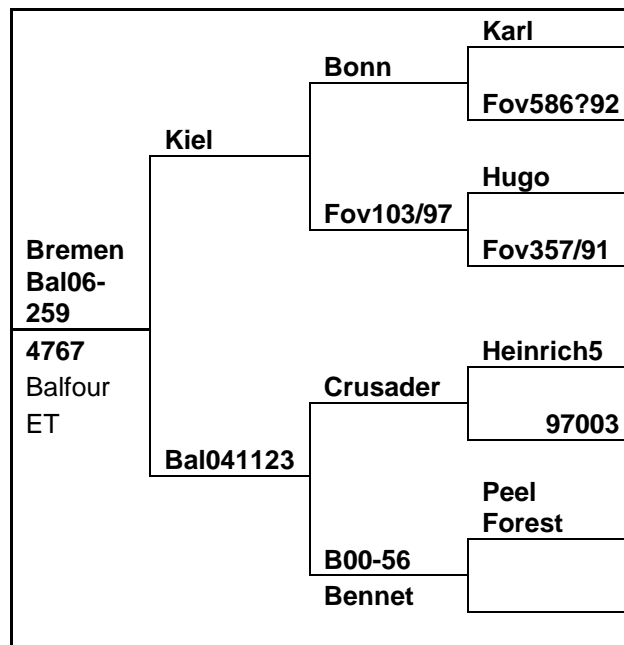

- Bernard S5046 was the first of the outstanding Buccaneer Grandsons bred by Porter Group.
- Bernard frequently sired multi pointed heavy beam spikers. As a 6yr stag in 2001 he cut 6.0kg SA and 3.6kg regrowth velvet totalling 9.6kg; as a 5yr old in 2000, 11.2kg Hard Velvet; as a 4yr 1999 5.35kg SA velvet.
- In 2001 S5046 was mated with the 2<sup>nd</sup> calvers and his progeny were the fastest growing of all 2002 sires in the past year. Not surprisingly he was the sire of 4 of the 2003 Sale 2yr old stags over 200kg offered, including B0039 & B0014 two of the best 2 yr old heads in the 2003 Sale. The all round ability of this stag is confirmed by his dominance as the 1<sup>st</sup> equal prolific sire, with 10, of the 2 year old stags presented in the 2004 Sale.
- This stag mysteriously disappeared during the 2002 roar and the 2004 Sale was the last year we had his progeny to sell.

Note: S5046's dam H0043 was also the dam for the massive Z8100 3 yr old who was 280kg on 18 January 2002, and also dam of a B0222 2 year Sale Stag weighing 233kg in the 2003 Sale.

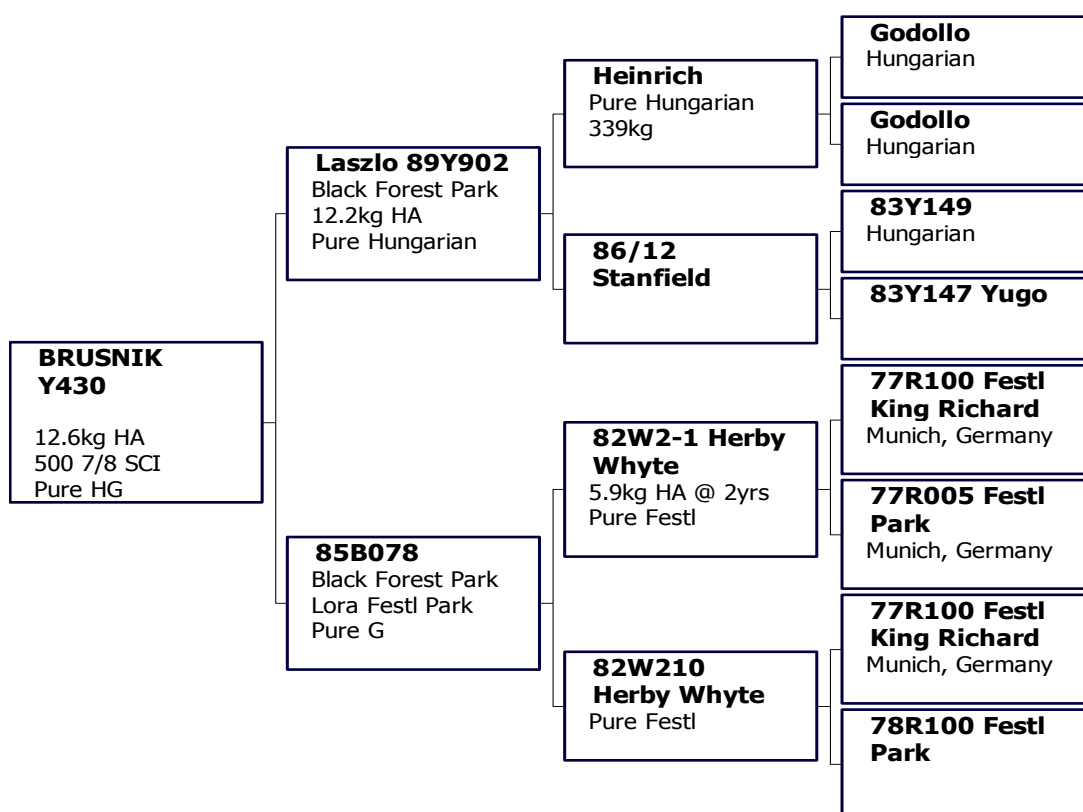

## BREMEN - BV 21.34

- Sire is half German from an Eastern Foveran hind.
- Dam is by Crusader and was one of the best hinds that resulted from the Deer Improvement progeny test programme in the Bennett herd in Geraldine in 2004.
- Bremen currently has 143 progeny, and a 12 month BV of 21.34, with a Mature Hind Weight of 14.06 (DEERSelect Oct 10).

## BRUSNIK Y430 - Eastern / German (1994)

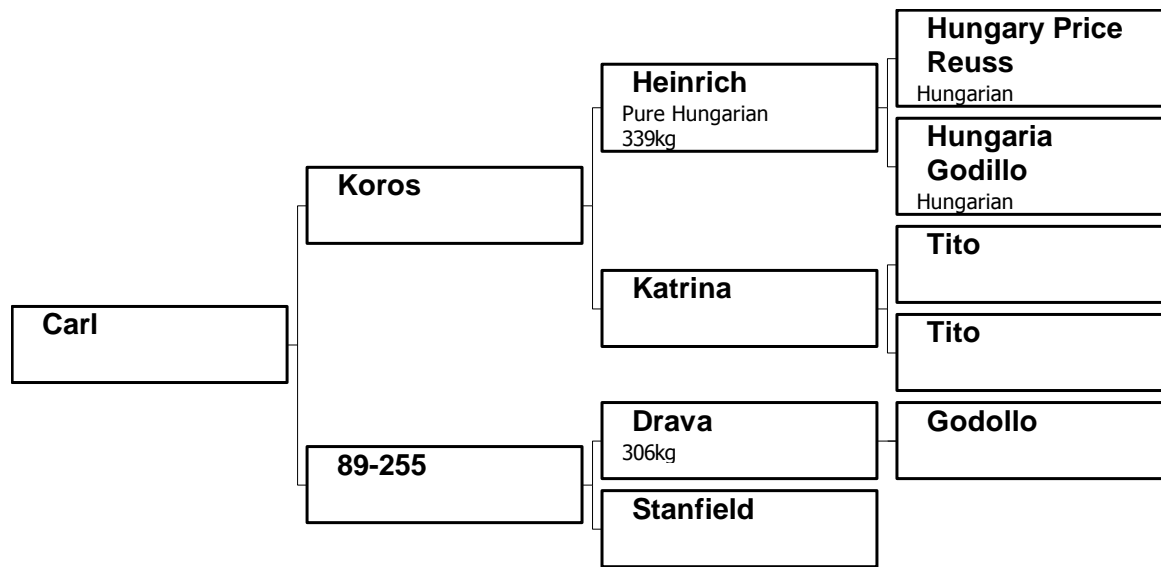

- Brusnik is one of the truly greatest stags produced by the New Zealand deer industry. He has been used as an AI sire at Remarkables Park in 2001, 2002, 2003 & 2004. His achievements include;
- At 2 years he produced over 5kg of hard antler with 20 points.
- He has recently supported claims of being one of the best sires in the country by being voted in the top two trophy sires of all time.
- In 2003 Brusnik year he has been scored at 500 7/8 SCI and cut 12.6kg of hard antler with a body weight of 321kg.
- In 2004 Brusnik was scored at 516 4/8 SCI – an outstanding trophy head.
- Brusnik is an outstanding dual purpose sire.

Age (Yrs)	Weight (kgs)	Hard Antler (kgs)	Points	SCI Score
2	215	5.09	20	No record
3	Not recorded	6.90	22	No record
4	Not recorded	8.40	29	440
5	270	11.50	29	460
6	293	11.20	33	502
7	308	11.60	29	482 7/8
8	321	12.60	31	500 7/8
9				516 4/8

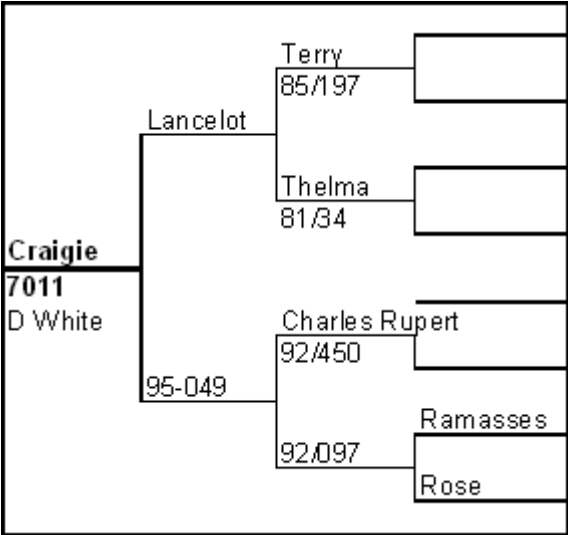

# CARL - Doncaster (1996)

- A 7 year old Koros son that has sired numerous progeny
- The highest BV of any animal in the Doncaster herd, and high reliability as a result of progeny numbers in the calculation
- Sire to 6 sons in our 2007 Sale

# CRAIGIE

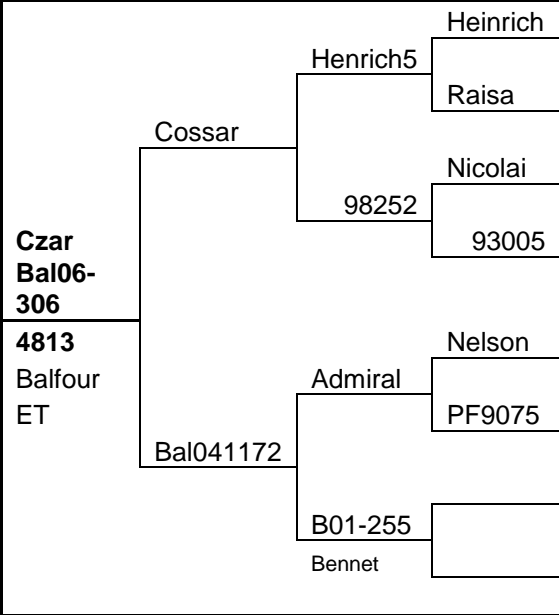

- National 5 Year Old and Allcomers Velvet Champion with a spectacular trophy head.
- Scored 601SCI as a trophy in 2010

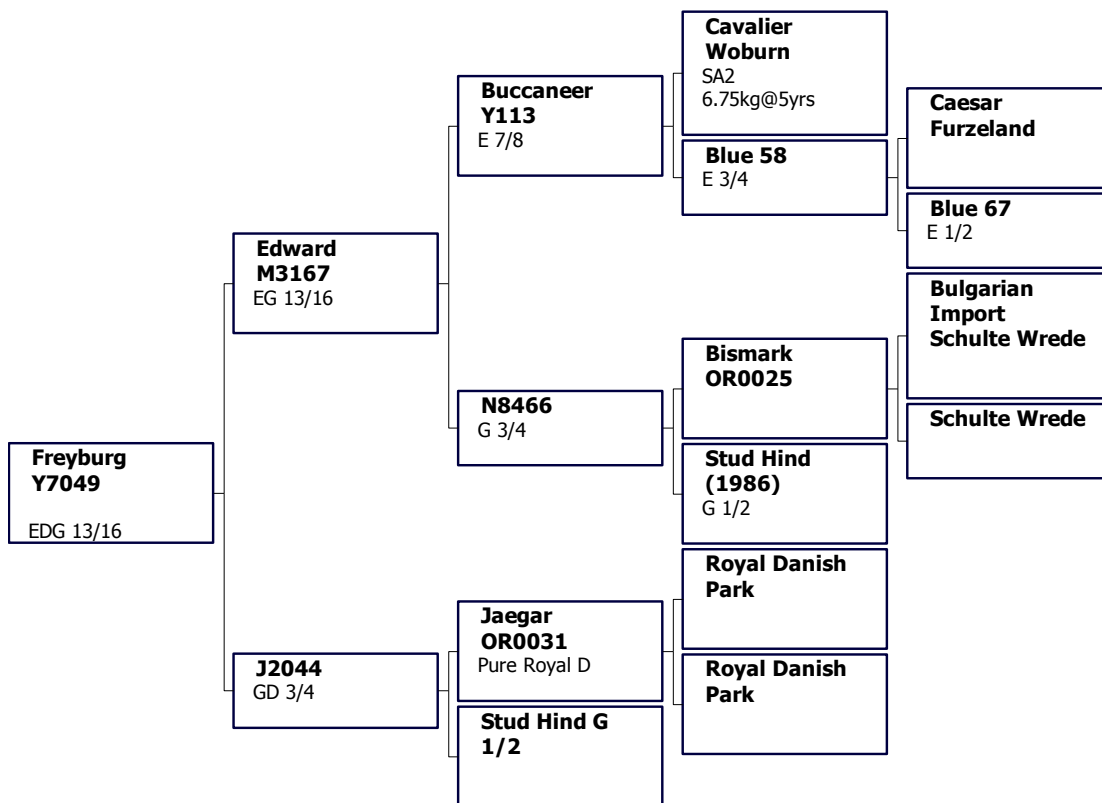

# CZAR – BV23.68

- Czar’s sire is Cossar and his maternal grand sire Admiral. Both sires combine high growth rates with excellent carcass traits.
- Czar's current 12 month BV is 23.68 based on 235 progeny, making him the number one ranked stag on DEERSelect (Oct 10) with a Mature Hind Weight of 19.13kg.
- Czar’s dam, by Admiral, was one of the best hinds that resulted from the Deer Improvement progeny test programme.

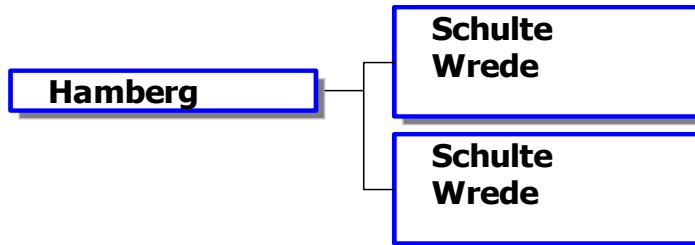

## FREYBURG Y7049 - English / Danish / German (1997)

- Birth Year 1997, a son of Edward M3167, a Buccaneer grandson, and on the dam side a Royal Danish Park grandson by OR0031 Jaegar.
- A big framed stag at 309kg on 16/12/03 with a massive head, heavy beam, multi pointed tops and long tines. He was sold as a trophy stag in 2005 scoring 393 SCI.
- With the assistance of DNA pedigree matching his dam has now been correctly identified as J2044 a huge royal Danish sired daughter weighing 140kg at weaning in February 2004.
- Truly a magnificent dual purpose sire.

**HAMBERG**

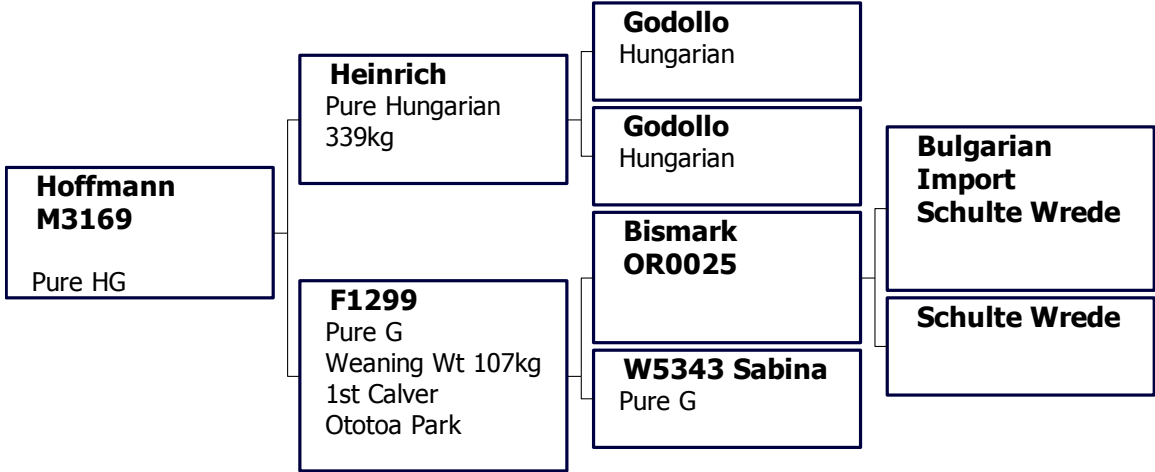

## HAPSBURG M3170 - Eastern / German (1993)

- Hapsburg was an outstanding Heinrich son (by AI), a Bismark grandson and a great grandson of Wolfgang, a top weight 1985 imported weaner stag, ex Schulte Wrede's Glaadt Stud Farm.
- This Heinrich/Bismark grandson has it all, temperament, large frame and an amazing progeny track record. The sire at 4 January 2002 of the heaviest 2 year old (225kg), 3 year old (276kg), and 4 year old (274kg) deer in the 2002 Sale, all with good heads.
- M3170 was a gold medal trophy in 2000.

## HOFFMANN M3169 - Eastern / German (1993)

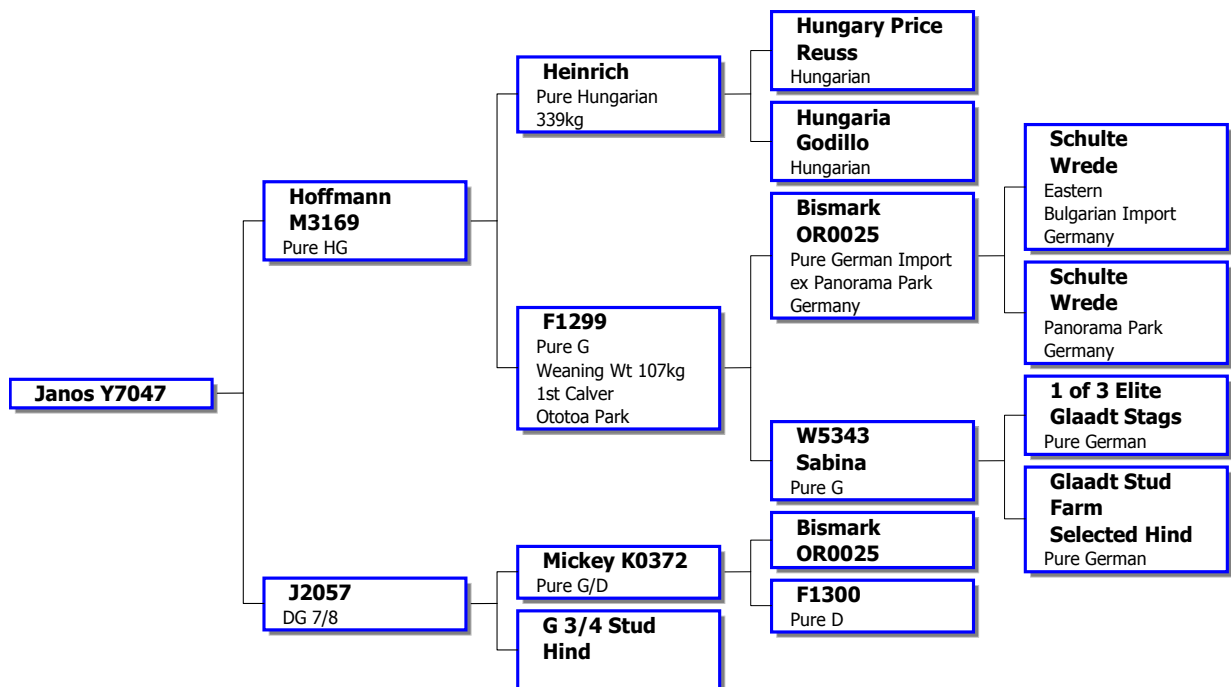

- Hoffmann was exceptionally well bred, a Heinrich grandson and a Bismark grandson and a pure German Katia granddaughter.
- This Stag and his brother M3170, both gold medal trophies with excellent temperament have been wonderful Heinrich son sires for our Stud. They have sired many top weight weaners which have grown out to be top quality 2 and 3 year olds. These include Y7043, our 2002 catalogue cover photo deer with an excellent 24 point head, and a body weight of 321kg on 16/01/03.
- M3169 cut 11.4kg of Hard Antlers as a 5 year old and his superb trophy head is shown on p77 of the 2004 catalogue.

## JANOS Y7047 - Eastern/German (1997)

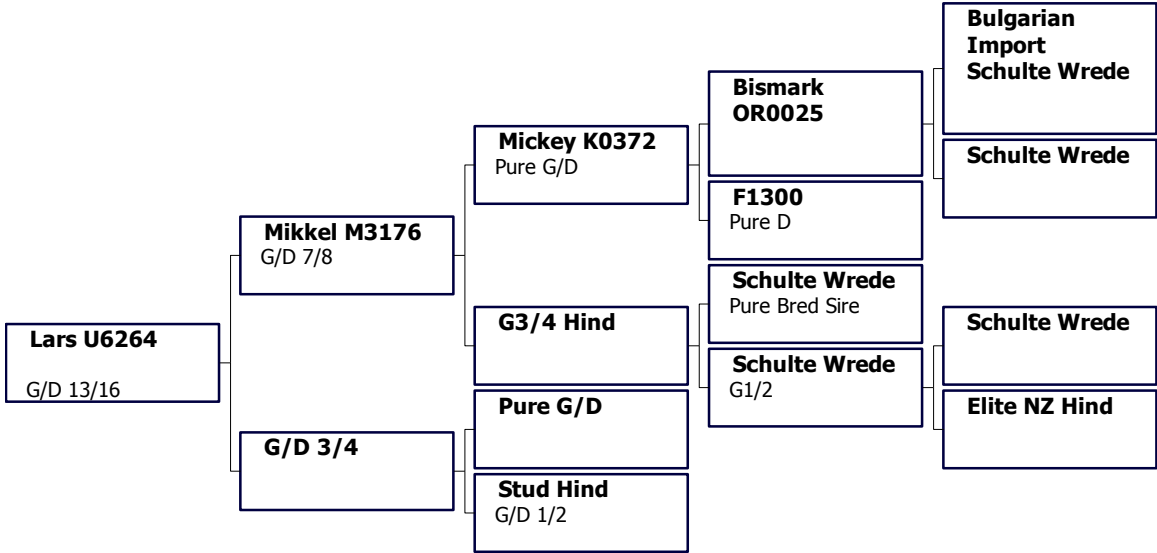

Janos Y7047 is a Hofman M3169 son and a Heinrich grandson with Schulte Wrede and Royal Danish Park Bloodlines on the dam's side.

- A top quality stag; he cut 4.9kg of beautifully even, heavy beamed, Super A velvet in 2002.
- A very big bodied Eastern type stag his weight on 11/12/03 was 290kg and will be a 300kg plus stag well before the roar.
- In 2003 he produced 7 Sale 14 month hinds ranging from a very respectable 110 to 119kg on the 6/1/03.
- Janos is the sire of 3 very impressive 2 year old Sale Stags in the 2004 Sale with body weights ranking 1<sup>st</sup>, 2<sup>nd</sup> and 4<sup>th</sup> heaviest on the 16 December 2003.

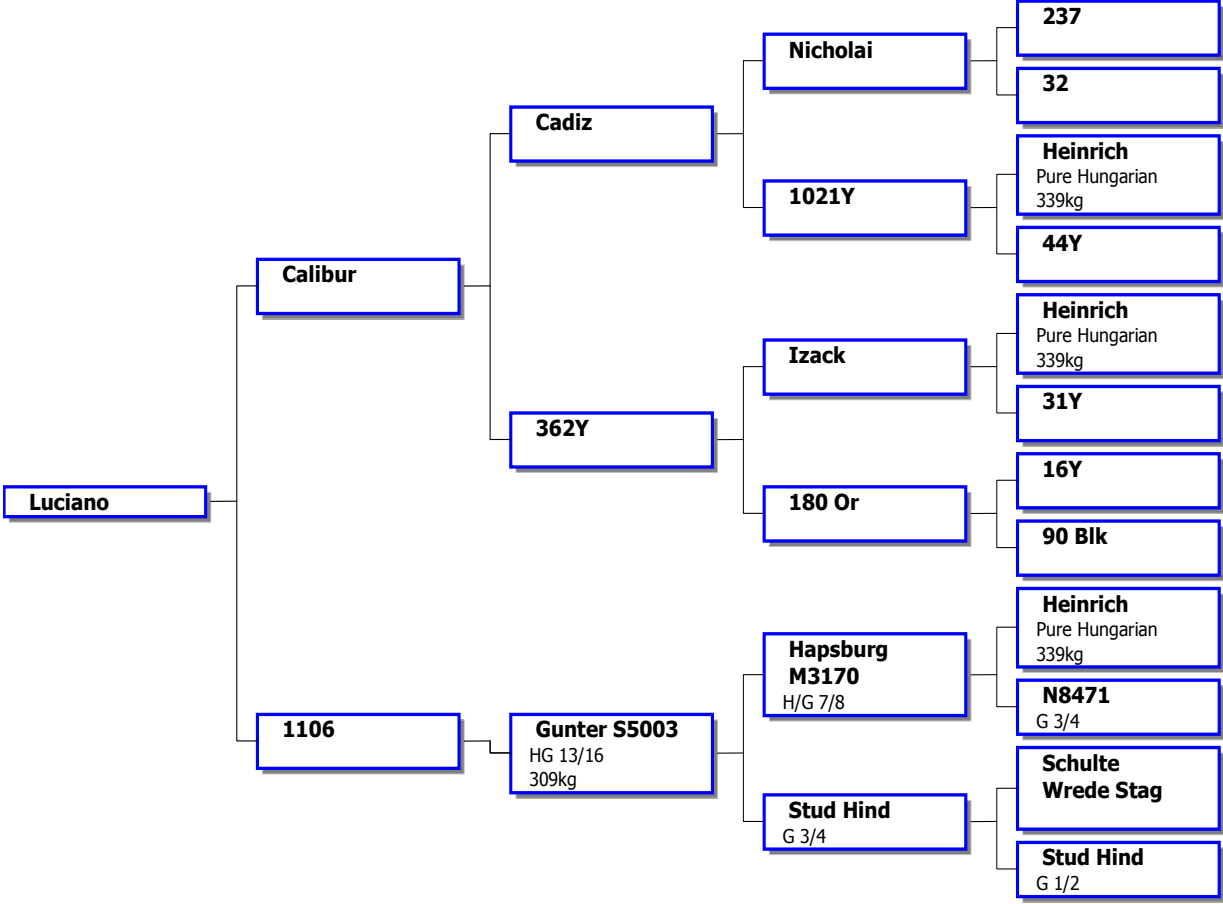

# LARS U6264 - German / Danish (1996)

- Lars is a great grandson of Bismark with Danish bloodlines originating in the Royal Danish Park on both his Sire and Dam sides.
- Lars' father Mikkel M3176 was a very big 7/8 German / Danish sired stag from Porter Group's Helensville family operation. Lars U6264 is also a big stag at 309kg with an excellent head, heavy beam, superb spread, all long tines and a great temperament. He has the genetic potential to produce outstanding progeny as proven with his 6 sons in our 2005 Sale.

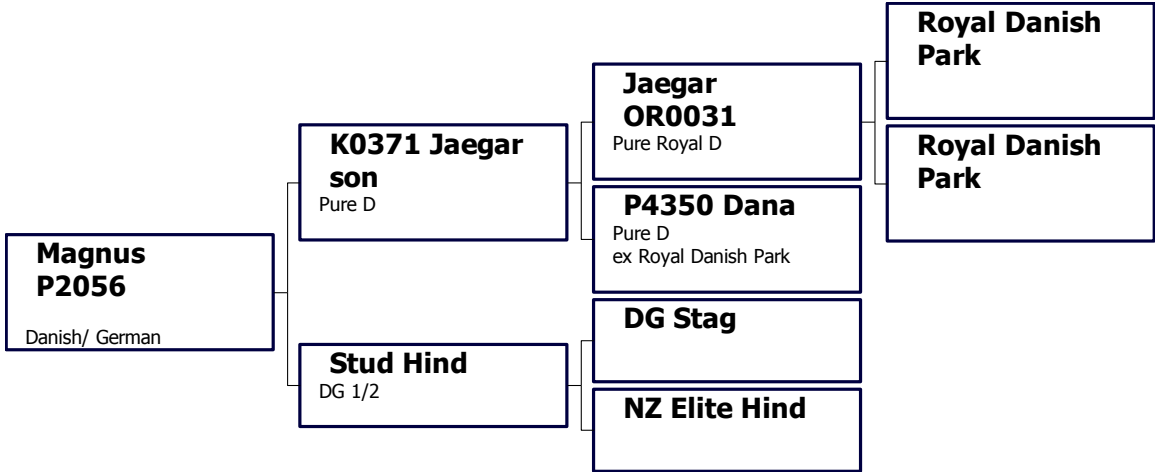

<b>LUCIANO</b>	<b>BV20.6</b>
----------------	---------------

- Deer Improvement Selected High BV Sire
- Born here at Remarkables Park Stud

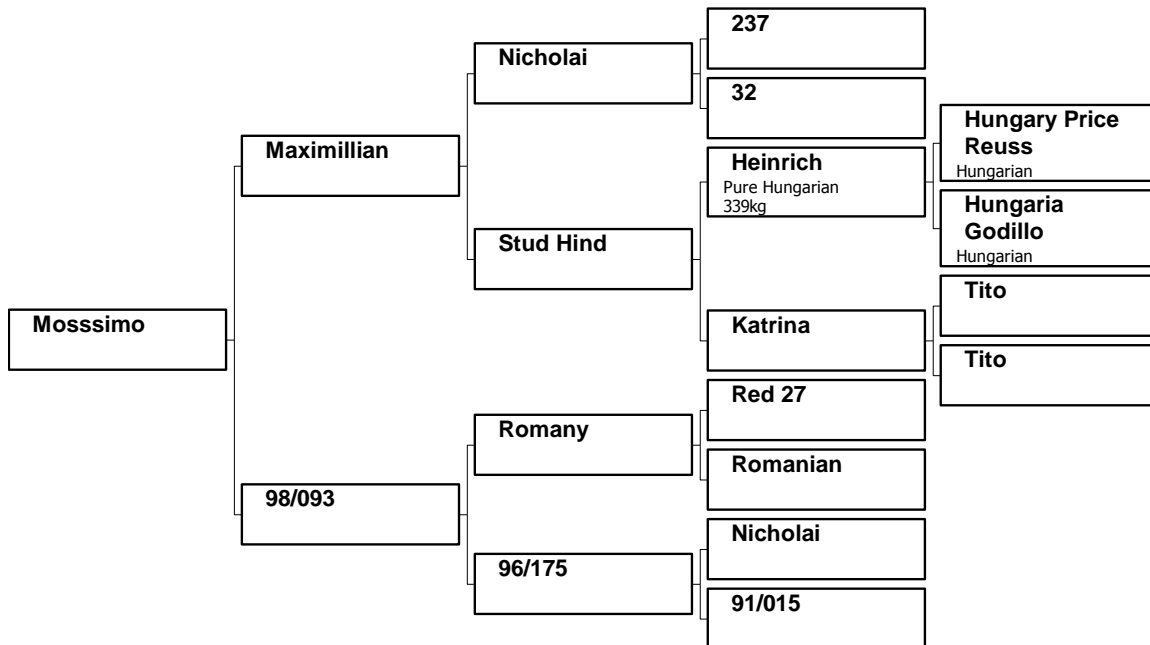

**MAGNUS P2056 - Danish / German (1994)**

- Magnus is a Jaeger Danish Grandson and the sire of the top weight NZ record 2 year old B0188 at 266kg bred, sold by Remarkables Park Stud on 17/01/03.
- Magnus was a very big 314kg stag on 06/01/03. He is a grandson of Jaeger, the pure Danish stag purchased as the largest weaner from the Royal Danish Park in 1985. Magnus produced 14 of the 2003 Sale 2 year stags including the top 2 stags at 266kg (**an all time NZ record**) and the 2<sup>nd</sup> heaviest 2 year old stag at 251kg on the 16/01/03.
- In 2003 Magnus damaged his left antler yet still cut an impressive 4.9kg of velvet. In 2002 as a 7 year old he cut 9.0kg of Hard Velvet; at 6 yr 4.3kg SA and 1.7kg of Regrowth, a total 6.0kg; at 5 yr 3.95kg and as a 4 year old 3.32kg.
- Magnus was represented in the 2004 Sale with two stags well over 200kgs. He is a stag who has proven his superb growth rate genetics are passed on to his progeny.

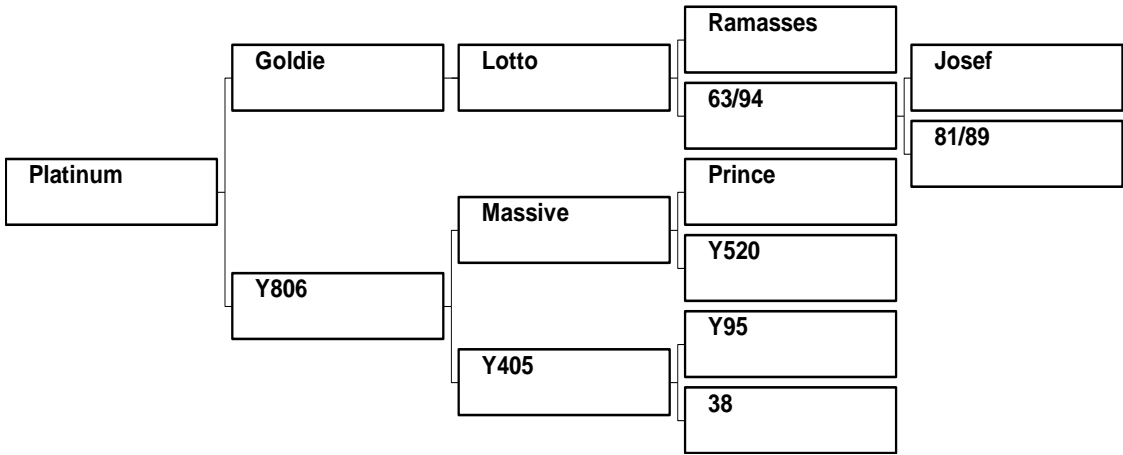

## MOSSIMO – Stanfield’s Bushey Park OI/364 (2001)

- A Maximillian son out of a Romany x Nicholai bred hind
- Weaned at 63.5kg
- Yearling weight of 145.5kg
- Female line averages 142kgs

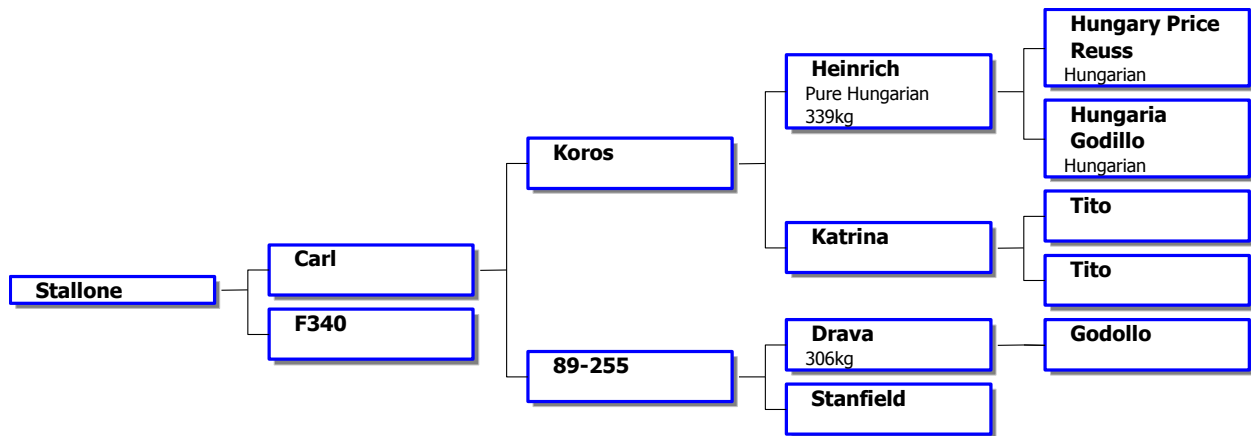

# PLATINUM - Raroa 84 (2001)

- Sired by Goldie, out of a Yugo x Woburn dam
- Highest ranked sale stag at Raroa for venison growth rate
- 132 kg as a yearling
- Identified by the breeder as having the best temperament of his 2 year olds
- Strong, even head, 7.55kg O.G. S.A.Beam at 2 years, 5.58kg SA2 velvet at 3 years.
- Ideal dual purpose sire

## STALLONE - BV 19.94

- Stallone, born in 2005 at Fairlight Station as the result of the Deer Improvement progeny test programme.
- He is sired by Carl, a son of Koros, from a Stanfield Drava hind.
- His 12 month BV is 19.94 based on 234 progeny and a Mature Hind Weight of 13.26kg (DEERSelect Oct 10).

## **VIHAR – Pure Hungarian (1994)**

- Vihar is an exceptionally large Eastern sire weighing 307kg at 5yrs and cut 8.85kg HA with an extraordinary length of 51 inches.
- His sire, Heinrich V, was the heaviest weaner of his year a massive 85kg and he went onto attain 307kg at 4yrs.
- Magyar on his dam's side is also an Adonis bloodline. He has fantastic temperament with all the credentials. Big heavy frame, long wide antlers with an SCI 422 – a true dual purpose sire.
- Vihar is a tremendous growth rate sire with the added asset of superb trophy antlers.
